

STANDARD OPERATING PROCEDURES FOR SAFETY

COMMUTING VEHICLE DRIVER SAFE WORK PRACTICE

Always do a walk-around before driving the commuting vehicle.		Passengers to stay awake to ensure driver does the same.
Come to a complete stop at all STOP signs.		Ensure VHF radio is working properly and call kilometres and direction.
Observe all posted speed limits.		Drive according to road conditions, especially during winter.
Where possible give right of-way to wood trucks.		Report vehicle safety concerns to your supervisor.
Keep windshield and headlights clean.		Always park the vehicle pointing out, in event of emergency.
Change drivers if tired.		WATCH FOR MOOSE!
