

STANDARD OPERATING PROCEDURES FOR SAFETY

SCALER SAFE WORK PRACTICE

Review daily Whistle safety message.		Ask loader operator to remove any dangerous looking wood.
Dress appropriately for the weather.		Avoid getting up on wood piles and never get up on piles higher than 3 meters.
Always wear appropriate <u>PPE</u>		Vary tasks so you are not typing for long periods of time.
Be alert and aware of dangerously piled wood.		Change posture as frequently as practical.
Always use care and caution when working around mobile equipment.		Avoid repetitive movements and postures.
Be alert and watch for <u>Slipping/Tripping Hazards.</u>		Stop accidents before they stop you.
