

Creating a Safer Work Environment

Don't have this guy on your grill

and we don't mean your BBQ !

Stay Alert When Driving Especially at Night !

Some of you have had an actual collision with a moose ... and if you were lucky, it only resulted in damage to your vehicle. Virtually all of us have had close calls ... the kind that brings us to our senses really fast. They just come out of nowhere, and always when you least expect it. Do yourself a huge favour ... be extra careful ... especially at night ... and especially if you are tired!
