Forestry Safety Association of Newfoundland and Labrador

St. John Ambulance

FSANL is now the local training provider for St. John Ambulance first aid training in Western NL.

Message from the Executive Director

2025 has been a very successful year for FSANL. We have trained 862 people in various courses, some including Standard First Aid, ATV/UTV Safety, and Chain-saw Safety. It was our best year yet for training!

We had a great turn out at our 13th Annual Forestry Health and Safety Conference. We would like to again thank our presenters and all who attended. Also a big thank you to those for the help and support to make this conference a huge success.

We hope you have a safe and happy new year!

Safety Conference**

**CIF Janeway
Fundraiser Curling
Tournament**

**Chainsaw
Safety
Course**

**Becoming an
Outdoors Woman
of Newfoundland
and Labrador**

Winter Hazards

Cold temperatures and icy conditions can cause hazards in the workplace.

- Cold stress
- Hypothermia
- Frostbite
- Slips and falls

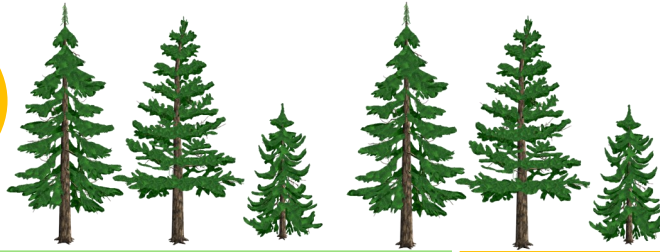

When working in cold temperatures, it is important to wear the proper clothing that will keep you warm. Wear layers, gloves, and a hat or other head covering that can fit under a hard hat.

To prevent slips and falls, clean ice and snow off boots, use a de-icing material like sand or salt, wear ice cleats on your boots, and be mindful of where you are walking.
